DETAILED ACTION

Election/Restrictions

1. Applicant's election of claims 11-37 in the reply filed on 3 July 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Response to Amendment

2. The examiner acknowledges the applicant's Remarks filed 28 November 2006.

Applicant's amendments have overcome all objections and the 35 USC 112 rejections.

Allowable Subject Matter

3. **Claims 11-37** are allowed.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The arguments presented by the Applicant have persuaded the Examiner. The primary reasons for allowance of claims 11 and 27 in the instant application rest at least

Art Unit: 2181

in the combination with the inclusion of the limitation that “...providing a graphical user interface for modeling the configuration specified for the baseboard, wherein the user interacts with the graphical user interface to select one or more components included in the configuration; in response to the user selection of one or more components on the graphical user interface, copying the device description file of each of the one or more selected components to a configuration file...” Claim 27 has a similar limitation. The prior art of record neither anticipates nor renders obvious the above-recited combination.

Because claims 12-26 and 28-37 depend directly or indirectly on any of the claims 11 and 27, these claims are considered allowable for at least the same reasons noted above with respect to claims 11 and 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
